**UNITED STATES DISTRICT COURT
NORTHERN DISTRICT OF CALIFORNIA
SAN FRANCISCO DIVISION**

AARON GREENSPAN,
Plaintiff,
v.
OMAR QAZI, SMICK ENTERPRISES, INC.,
ELON MUSK, and TESLA, INC.,
Defendants.

Case No. 3:20-cv-03426-JD

**REQUEST FOR JUDICIAL
NOTICE IN SUPPORT OF
PLAINTIFF'S SECOND
AMENDED COMPLAINT**

Judge: Hon. James Donato
Complaint Filed: May 20, 2020
SAC Filed: August 26, 2020

Pursuant to Federal Rule of Evidence 201 and *Rosales-Martinez v. Palmer*, 753 F.3d 890, 894-895 (9th Cir. 2014), Plaintiff Aaron Greenspan requests that the Court incorporate by reference or take judicial notice of the documents identified below in support of Plaintiff's Second Amended Complaint ("SAC"). These documents did not yet exist at the time the SAC was filed.

I. DOCUMENTS SUBJECT TO THIS REQUEST

Exhibit	Description	Basis for Notice and/or Incorporation
A	Twitter, Inc. “Ban evasion policy” Dated October 2020	Publicly available from a reliable source; SAC ¶¶ 10, 110, 138, 293(h)
B	LinkedIn Profile of Former Tesla, Inc. Director of Engineering Dorian West Disclosing That “Tesla Semi	Publicly available from a reliable source; SAC

	program engineering team” Had Been “Redeployed...as needed”	Issue No. 31
C	@ElonMusk Twitter Post Dated October 16, 2020 For The First Time Disclosing Multiple Neck Surgeries	Publicly available from a reliable source; SAC Issue No. 44
D	@ElonMusk Twitter Post Dated November 3, 2020 For The First Time Disclosing Tesla, Inc. “about a month” From Bankruptcy During “mid 2017 to mid 2019”	Publicly available from a reliable source; SAC Issue Nos. 1, 4, 5, 6

II. FACTUAL BASIS

Judicial notice is proper because all of these documents did not yet exist when the SAC was filed on August 26, 2020, but are now available from reliable public sources. As such, the documents’ existence and authenticity cannot reasonably be questioned.

The website of Twitter, Inc. is a reliable public source, both for content concerning the company itself and for posts by specific users. Per counsel for Defendant Musk, “Courts in this district and elsewhere in the Ninth Circuit have found that tweets are appropriate subjects of judicial notice where—as here—they are publicly available and their accuracy may not reasonably be questioned. *Unsworth v. Musk*, No. 19-MC-80224-JSC, 2019 WL 5550060, at *4 (N.D. Cal. Oct. 28, 2019) (‘[J]udicial notice is proper because the existence of the publicly-available . . . tweets cannot reasonably be questioned.’).” ECF No. 58.

Similarly, LinkedIn profiles are reliable public sources properly subject to judicial notice. “[T]he Court here takes judicial notice of Thomas Alston’s LinkedIn profile (which is still currently active)...” *Miller v. Southwest Credit Systems, L.P. et al*, Case No. 1:18-cv-02538-ADC (D. Maryland December 4, 2019). Mr. West’s LinkedIn profile is active and accessible at <https://www.linkedin.com/in/dorian-west/>.

III. CONCLUSION

For the aforementioned reasons, Plaintiff respectfully requests that the Court take judicial notice of the above referenced documents.

EXHIBIT A

Twitter, Inc. “Ban evasion policy” Dated October 2020

Ban evasion policy

Overview

October 2020

Our rules exist to help keep everyone using Twitter safe and ensure they can participate freely in the public conversation. Therefore, we prohibit attempts to circumvent prior enforcement, including through the creation of new accounts.

What is in violation of this policy?

Under this policy we prohibit a range of behaviors:

- **You can't circumvent permanent suspensions.** If an account has been permanently suspended for severe violations of the Twitter Rules (<https://help.twitter.com/https://help.twitter.com/rules-and-policies/twitter-rules>), Twitter reserves the right to also permanently suspend any other account we believe the same account holder or entity may be operating in violation of our earlier suspension, regardless of when the other account was created.
- **You can't circumvent a Twitter suspension, enforcement action, or anti-spam challenge.** This includes any behavior intended to evade any Twitter remediation, such as creating a new account or repurposing an already-existing account.
- **You can't circumvent a Twitter suspension by operating, or having someone else operate on your behalf, an account which represents your identity, persona, brand or business persona for a different purpose.**
- **You can't allow someone who has been permanently suspended from Twitter to permanently take over or temporarily operate your account.**
- **You can't imitate a suspended account if the apparent intent is to replace a suspended account.** Operating a parody, newsfeed, commentary, and fan account that does not function as a replacement of the suspended account is not in violation of the above, provided that the account follows the applicable requirements outlined

in the policy (<https://help.twitter.com/rules-and-policies/parody-account-policy>).

What happens if you violate this policy?

The consequences for violating this policy depend on the type and severity of the violation and of the accounts' previous history of violations.

Circumventing a Twitter enforcement action (such as a permanent suspension) by creating accounts or repurposing existing accounts to replace or mimic a suspended account is a violation of the ban evasion policy; it will result in permanent suspension at first detection.

We may suspend any account that is being operated to circumvent a Twitter enforcement action (such as a temporary account lock). Note that the account owner may in some circumstances be allowed back on Twitter following a successful appeal; however, any account used for the purpose of circumventing Twitter remediation will remain suspended.

Additional resources

If you believe that an account you own has been suspended or otherwise restricted in error, instead of creating a new account, we recommend that you appeal your account suspension by contacting our support team, and/or that you comply with completing required Twitter challenge(s) if applicable.

Feedback

Learn more about our range of enforcement options (<https://help.twitter.com/rules-and-policies/enforcement-options>) and our approach to policy development and enforcement (<https://help.twitter.com/rules-and-policies/enforcement-philosophy>).

Experience

Director of Engineering

Tesla · Full-time

Sep 2005 – Sep 2020 · 15 yrs 1 mo

Incredible 15 year experience at the world's most inspiring engineering company, accelerating the transition to sustainable transportation and energy.

2005-2007

Early employee initially served as the release engineer for the Roadster battery pack. Discovered and overcame novel challenges to utilize small cylindrical cells in the world's first production automotive application. Created and led the Battery Engineering team, critical to Tesla's early success. Supported manufacturing bringup of first battery module & pack factory overseas.

2007

Performed early vehicle system engineering for Whitestar vehicle (Model S).

2008-2011

Led battery pack development for automotive OEM customers (Smart Electric Drive, Mercedes A-Class Electric Drive). Supported Roadster battery manufacturing ramp to volume production domestically.

2011-2015

Led engineering development of full powertrain systems for automotive OEMs retrofitting their existing platforms (Toyota RAV4EV, Mercedes B-Class Electric Drive). These systems include

Sci

energy storage, propulsion, powertrain/cabin thermal management, low voltage generation, and charging. Supported vehicle level validation (e.g. battery structure was critical to vehicle crash performance.)

2015-2017

Reestablished and led vehicle Prototype Engineering & Fabrication team. Produced dozens of internal prototype systems and vehicles, including Bucks, Mules, Alpha, and Beta prototypes. Most notable were the functional showcars used to reveal the Model 3 and Tesla Semi.

2017-2020

Led Tesla Semi program engineering team. Redeployed team (and recruited others) as needed to support urgent hands-on efforts including battery module production at Nevada Gigafactory and vehicle general assembly in Fremont Factory.

Maybe I can be helpful. Had Mobi-C disc put in at C5-C6, however 1st surgery failed to remove bone spur sticking into my spinal cord. 2nd surgery took care of it. Recommend using Yelp or other online reviews of doctors. Effectiveness varies widely.

On this day in 2008: Tesla secures \$40 million loan to avoid bankruptcy

Today, it's the most valuable automaker in the world.

Tesla Promised Another \$40 Million, Loses Lawsuit

BY CLAIRE CAIN MILLER NOVEMBER 3, 2008 2:49 AM

UPDATED 4:23 p.m.: Added news of ruling against Tesla in Tesla's suit against Fisker Automotive, a competing electric car company.

25

497

5.6K

Elon Musk @elonmusk · 38m

That funding round completed 6pm on Christmas Eve in 2008. Last hour of last day possible, as investors were leaving town that night & we were 3 days away from bankruptcy. I put in all money I had, didn't own a house & had to borrow money from friends to pay rent. Difficult time.

And it turns out to become the best decision ever

3

4

456

Elon Musk @elonmusk · 30m

I put in my last money, even though I thought we would still fail. But, it was either that or certain death for Tesla. Extremely difficult to raise money for an electric car startup (considered super quirky back then), while stalwarts like GM & Chrysler were going bankrupt.
